INSTALLATION DETAILS

GENERAL INFORMATION

► Applications

Lanced Soffit panels may be applied horizontally or vertically. They are not recommended for roof or exterior wall applications.

NOTE: Sidelap disengagement may occur under loading.

► Substructure

Lanced Soffit panels are designed to be installed over open structural framing or a solid substrate.

► Coverage

Lanced Soffit panels are available in a 1" depth with a 12" coverage.

► Length

Minimum factory cut length is 5'-0" (with V-Grooves), or 7'-0" (without V-Grooves). Maximum panel lengths: 20'-0" for 24 Ga. and 5'-0" for 26 Ga.

► Fasteners

The fastener selection guide should be consulted for choosing the proper fastener for specific applications. Quantity and type of fastener must meet necessary loading and code requirements.

NOTE: All panels are subject to surface distortion due to improperly applied fasteners. Overdriven fasteners will cause stress and induce oil canning across the face of the panel at or near the point of attachment.

► Availability

Finishes: Acrylic Coated Galvalume®, MS Colorfast45®, or various Kynar 500 (PVDF) colors.
Gauges: 26ga, 24ga and 22ga

► Lancing Details

Lanced Soffit has three 2" wide strips of 1/2" x 1/8" punched slots on 7/8" centers, staggered.
