

Metal Sales' structural sections are manufactured using ASTM A570 grade 55 steel (55,000 PSI minimum yield point) finished with a red oxide or G-90 galvanized finish (which meets ASTM A653). Cee or Zee shapes with web depths of 4", 6", 8", 10", and 12" with a variety of symmetrical or unsymmetrical flanges available. Special shape, single or double slope and high or low side struts are available up to 40'-0" lengths.

A variety of base angles, channels, sub-girts, and hat sections are also available. Please inquire with your nearest Metal Sales' manufacturing and sales office location.

SECONDARY FRAMING MEMBERS
