Lazy Susans

Every KV® Lazy Susan exceeds ANSI/BHMA Product Grade 1 standards for cycle and load testing. Our susans are designed for easy installation and adjustability. The “nesting” shelf design of the polymer susans makes more efficient use of warehouse space. Shelves have a textured, non-skid surface and incorporate an extra-deep 1” rim to prevent stored items from slipping and tipping. The telescopic chrome-plated center post ensures a streamlined look that will complement any kitchen interior.
