Noise S.T.O.P. ACOUSTIMETAL™

Indoor or Outdoor Use

Ideal for Demanding Environments

- *Durable*
- *Impact Resistant*
- *Walls & Ceilings*
- *Class A-1 ASTM E-84 Nonflammable*

Introducing Acoustimetal™, the latest advancement in noise control and acoustic treatment. Acoustimetal™ combines the durability of a perforated metal shell and the superior noise control, properties of our exclusive nonflammable acoustical material. Acoustimetal™ is ideal for demanding environments where noise control applications are exposed to physical impact. Indoor or outdoor use.

The Acoustimetal™ shell is available in electrostatically finished, anodized aluminum or optional painted white. The Acoustimetal™ shell is designed to withstand the harshest industrial installations or visually appealing interior design. The unique 50% perforation pattern gives maximum sound control with the use of our Class A, Fiberglass Free (LEED ELIGIBLE) Echo Eliminator or Sound Silencer material inside. Custom panel sizes available.

MATERIAL: .040 clear anodized perforated aluminum

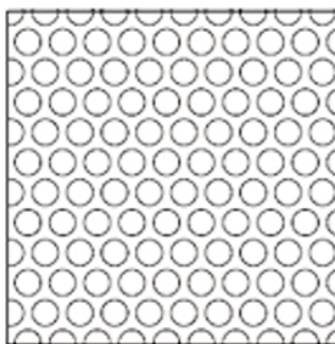

METAL OPTIONS: Galvanized steel or stainless steel

APPLICATIONS: Ceiling tiles, wall panels, steps, machine enclosures

INSTALLATION: Mechanical clips

Standard Perforations:

RS036

Hole Size: .117" Dia. x 5/32" Ctrs.
Open Percentage: 51%

For more perforation samples
see pdf on website.

We Identify and S.T.O.P. Your Noise Problem

Echo Eliminator™ - Fill

Echo Eliminator™ is a high performance acoustical material made from 85% post industrial recycled cotton. Echo Eliminator™ has an NRC up to 1.15.

Sound Silencer™ - Fill

Sound Silencer™ is a dual functional panel that blocks and absorbs sound. Sound Silencer™ has both an NRC and STC value.

INSTALLATION INSTRUCTIONS

Acoustimetal™ perforated metal wall panel system is a simple to install 20-24 gauge anodized aluminum panel that has 1" or 2" 90 degree sides on each long edge to which make them easy to field cut and install. Cut the **Sound Silencer** or **Echo Eliminator** fill/acoustical backer with a skill saw or table saw to fit inside of the Acoustimetal panel, place inside pan then screw the edges of the panel as needed to substrate. Cover any screws with flat aluminum trim pieces provided in 16' lengths. You can glue trim or drill.

Optional: Metal C-Channel Edges available. Optional: EZ Clip mounting system available.

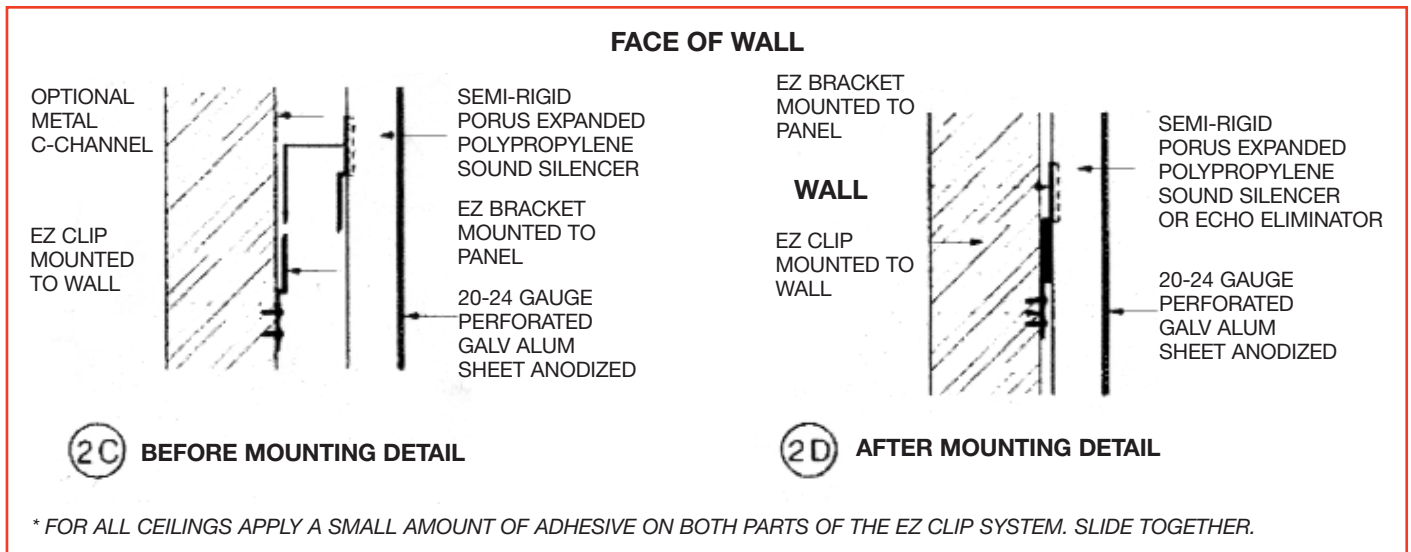

Panel sizes up to 12' H x 4' W available. Custom sizes and perforations are available.

Note: Lead time is 6 -8 weeks.

We also carry the same perforations and anodized look with the Sound Silencer backer as 23-3/4" X 23-3/4" or 23-3/4" X 47-3/4" drop-in ceiling tile.

CLEANING INSTRUCTIONS

Wipe with soft cloth and rubbing alcohol.

Mechanical Clips (ie. E.C. Clips / E.Z. Clips)

Wall bars attaches to wall with standard screws provided by others.
