

Inertia™

Multi-Functional and Sports Flooring

Inertia™ provides maximum durability with enhanced design options.

- Choose from our Standard Speckled colorations or create your own custom Speckled or Prima™ Marbleized Tiles.
- Two surface treatments available:
Hammered (standard) or
Weathered (special order).
- Coordinates with other elements of the Johnsonite ColorMatch® System.
- Choose a coordinating pattern and color in traditional 1/8" or 3/8" Triumph rubber tile to extend your design to other areas.
- Helps absorb sound in high foot-traffic and rolling-traffic areas.
- Edges remain flat during installation. No weighing down of seams is necessary.
- 24" x 24" square edge tiles are easily installed using a one-part, environmentally friendly adhesive.
- 1/4" gauge for added durability.
- Five-Year Limited Wear Warranty.

Specifications

Meets or exceeds the following ASTM Tests:

- E-648/NFPA 253 Class I
- E-662/NFPA 258, 450 or less smoke rating
- D-2047 Slip Resistance
- ADA Slip Resistance Recommendations of 0.6 for flat surfaces and 0.8 for ramps

Performance results for the following ASTM Tests:

- D-2240 Hardness: 80-Shore A
- D-3389 Abrasion:
<1.0 gram/1000 cycles

Note: Inertia is not recommended for areas where performance for skate blades, spikes or free weights is required. Please specify Triumph™ or 3/8" Replay™.

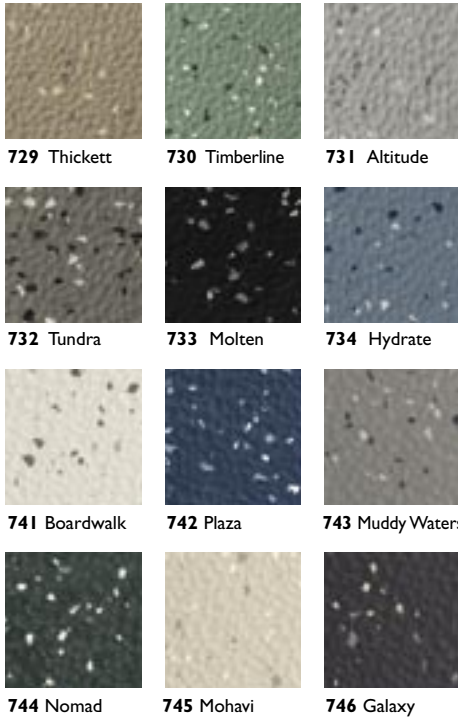

We measure
space
by more than
square feet.

Johnsonite®

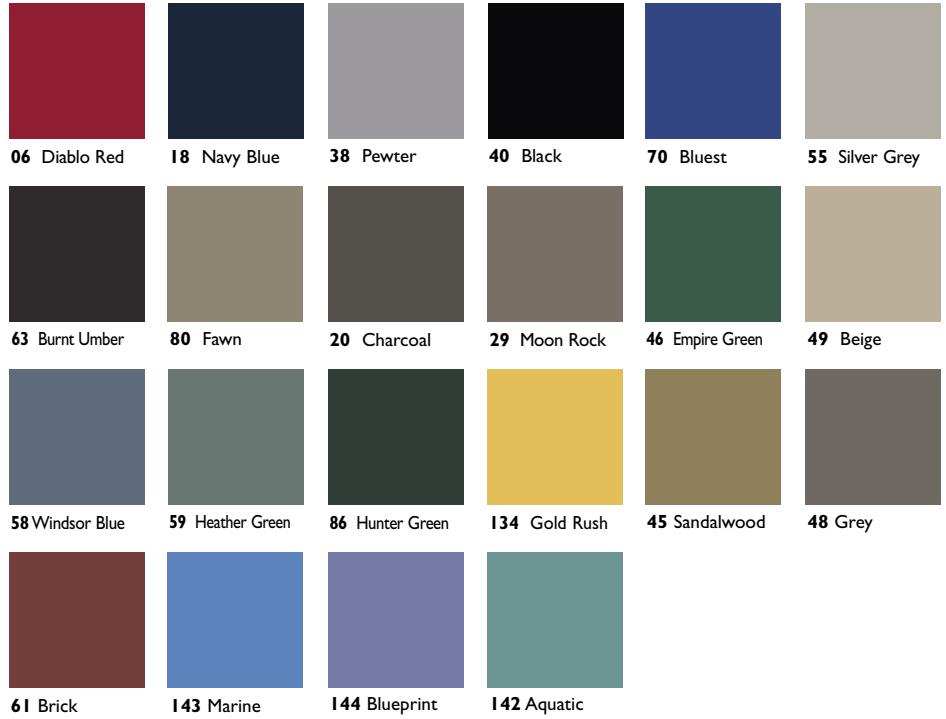

Inertia contains some post-industrial materials.

12 STANDARD SPECKLED COLORWAYS

22 SOLID COLOR TILES*

*38 other solid colors available by special request.
For available colors, reference color palette B in the Johnsonite Story.

INERTIA MULTI-FUNCTIONAL AND SPORTS FLOORING
