## Hurricane Resistant Metal Roofing System

SCANROOF is the ideal roofing system to stand up against mother nature's storms, typhoons, hurricanes, damaging winds and driving rains. The panels are structural, practical, and economically efficient for any project. Take a look at the following points:

- One size (modular) panel for all projects
- No exact measurements required for ordering
- Impact Resistant
- No battens required
- Scanroof has 15 - 20% less waste than a typical metal spanish tile product
- The panel is fastened through the substrate into the truss

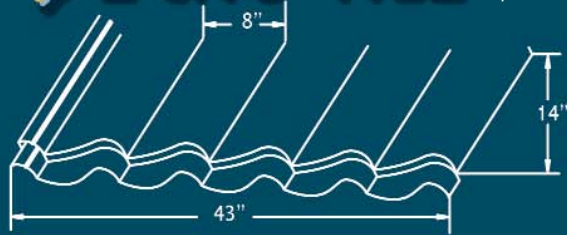

# TECHO TILE<sup>®</sup>
