

Teragren® Bamboo Countertops/Table Tops

FINE BAMBOO FLOORING, PANELS & VENEER

Teragren® manufactures fine bamboo countertops and table tops to industry-leading standards for quality and environmental safety. These furniture-grade products are made with rapidly renewable Optimum 5.5® Moso bamboo—perfect for table tops as well as kitchen counters and islands.

Teragren's **Parquet Bamboo Butcher Block** is a durable, alternative to traditional maple butcher blocks—ideal for kitchen counters, islands, and table tops used for food prep or cutting surfaces.

Teragren's **Traditional** bamboo countertop is available with either a Vertical Grain Caramelized or Natural face to provide a beautiful visual accent to cabinets, millwork or furniture in any interior design. These countertops are perfect for kitchen and bathroom applications because bamboo is extremely durable — 25% harder than red oak.

Teragren's **Strand** countertops, made with our proprietary Xcora™ technology, are 154% harder than red oak—ideal where hardwoods are traditionally used.
