Our customers say it best . . .

I am very happy with the fence! I have had numerous compliments on the beauty of it. Friends and strangers have stopped to get a good look. Some come to the house to ask where and who put it in. Mr. Deem was very helpful in helping me decide location, length, end pieces, etc.

Denver and Hanver

Now the traditional "stockade" fence is available from Country Estate. This unique style provides privacy and air-flow. It works well as a screen for unsightly areas, and regardless of its age, The Denver style fence never needs painting. Of course, that also means it never needs scraping, and the finish will never peel or blister like painted wood. You can enjoy Denver with wide verticals or integrate a narrower Hannibal vertical between each Denver panel (we call it Hanver). The Hannibal and Denver caps are designed with identical bevels, so they look great together.

Hannibal

You can almost hear the paddlewheelers churning down the Mississippi on a hot summer day. Country Estate brings the flavor of Mark Twain's time to today's residential settings with the Hannibal traditional board fence . . . without the whitewashing that even Tom Sawyer disliked. The Hannibal is constructed of rugged and durable virgin polyvinyl chloride extrusions that are carefree after installation. Boards won't rot or split nor nails rust with Country Estate fence because PVC construction has replaced them with UV resistance and a timeless feeling like those summers long ago.

Kensington

There was a time when fences were considered a restriction . . . a wall of sorts. Country Estate's many privacy and residential fence designs are changing that perception. Kensington's trim efficiency will add beauty and value to your property while allowing air flow. Your neighbors will recognize it as a strikingly beautiful addition to the neighborhood and it will never become an eye-sore begging for paint. The boards won't peel or blister, the nails won't rust, and the posts won't rot off. Country Estate Fence replaces those problems with ultra-violet resisters and impact modifiers that assure strength and beauty.

Our customers say it best . . .

I have had three wood fences with 20-year guarantees that have rotted out. This one will last and always look new.

C.W. - Yorba Linda, CA

We have received so many great comments about the Hampton fence. It was almost overwhelming. It truly changed the look of our house.

G.P. - Carmel, IN

I was very impressed with the quality of work performed by the installer. He was courteous, neat and a very skilled craftsman.

E.G. - Oswego, IL

Both my wife and I are very happy with our fence. Some of our friends liked it also and have contracted Suburban Fence to install fences around their pools.

Marseille

The Europeans love lattice because it compliments a garden so well. The purity of white fence with a dash of lattice is not only beautiful when it's new, but unlike traditional fence after years of use, the Marseille doesn't need painting. You can enjoy the climbing ivy without having to tear it down to repaint. Country Estate Fence is constructed of the finest compounds of virgin polyvinyl chloride, a modern man-made substance that won't rot, chip, crack and it never yellows or requires painting. The Europeans were right. There's nothing like a touch of lattice.

Our customers say it best . . .

We have the best fence at Lake Barnadette Golf Course. All our neighbors want to do theirs. We have given or passed the name of the company who did our fence and hoped for the best. We selected 3 companies who could have done the job. We liked the design and the price was right from Danielle Fence Co. who did a great job. Thank you.

M.P. - Zephyrhills, FL

Staff and Service were beyond anything we expected. It's a treat when people really care and show it. Thanks.

T.S.T. - Calgary, Alberta

The manager took the time to drive 30 miles to our home and visit with me about the fence type I wanted, the way it would be put up and how it would blend in with our home, at no cost or high pressure sales pitch. I also talked to other dealers of fencing and they would not take the time to come to our home and see what I wanted to do. I would highly recommend Schultz Fencing to anyone! Their workers are neat, clean and take an interest in the job they do.

Durable PVC lattice by Country Estate is one of the most creative tools you can find today. These traditional lattice panels, constructed of scientifically formulated 100% virgin PVC compounds, never need painting. Maintenance? It's reduced to an absolute minimum — no flaking, blistering or rotting, and that's important since nearly all lattice touches the soil or plants at some point. We've combined the beauty of lattice with the impressive durability of PVC for a product with nearly unlimited design capabilities. Bring that Mediterranean feeling to your own yard today. . . with Country Estate Dura-Lattice.
