

MARQUAM

SINGLE-SIDED BIKE RACK

The Marquam single-sided bike rack is designed to provide organized, intuitive, space efficient bike parking all within a beautiful sculptural design.

The Marquam was designed to address the shortcomings of existing "coat hanger" style racks. Each bike is provided its own parking location and is supported so handlebars can't twist, keeping bikes upright and orderly. Bikes are parked in an angled orientation, minimizing bike-to-bike interference and allowing for easy loading and unloading. The Marquam meets APBP bike parking standards allowing both the bike's wheel and the frame to be secured using a variety of lock types.

Available in both four and six bike, single-sided versions, the Marquam is easily installed with two mounting anchors or can be used free standing without mounting anchors.

MOUNTING

- SURFACE ANCHOR/MOUNT (ALL REQUIRE 2 X 1/2" ANCHORS)
 - › CONCRETE WEDGE ANCHORS
 - › CONCRETE WEDGE ANCHORS WITH TAMPER RESISTANT NUTS
 - › CONCRETE DRIVE SPIKES

MATERIALS

- RACK SUPPORT LOOPS: 1.5" ROUND TUBING
