

Wood Locker

[TECHNICAL SHEET]

GearBoss® Wood Locker

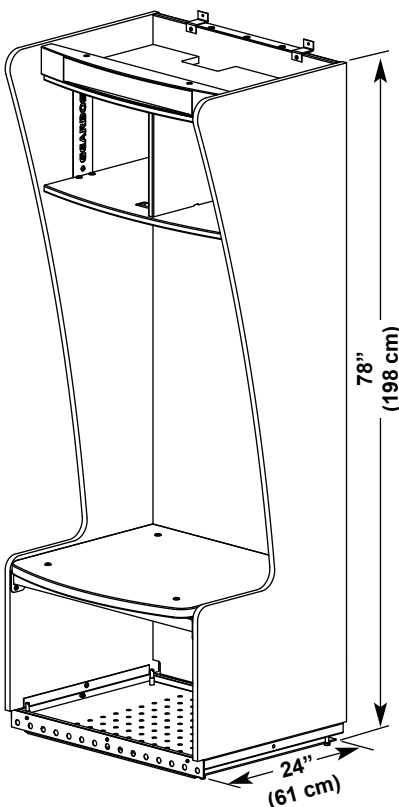

GearBoss Wood Lockers feature open front athletic uniform and equipment storage available in an array of styles and finishes that represent excellence in team room design. Versatile construction provides for through-bolting to connect side-by-side units, allowing for easy removal of a single locker without disturbing other lockers. Steel base mounting fixture provides natural ventilation and height adjustment to compensate for uneven floors. The optional built-in foot locker provides power ventilation to dry cleats, socks and shoes. Available features and accessories include power ventilated shoulder pad and helmet drying racks, adjustable base, digitally-locked valuables compartment, lighted name plates and electrical outlet.

Intended Use

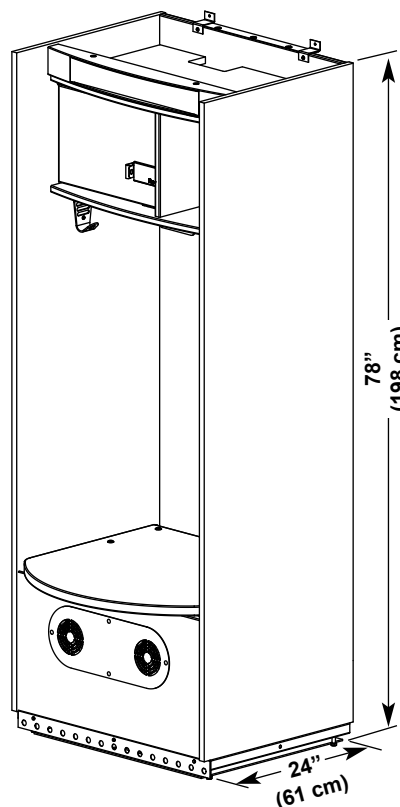

- The GearBoss Locker provides a cleanable, sanitary and fast drying storage solution in the team room.
- The GearBoss Locker is intended for indoor use in normal ambient temperature and humidity conditions - components must not be exposed to prolonged outside weather conditions.

Specifications

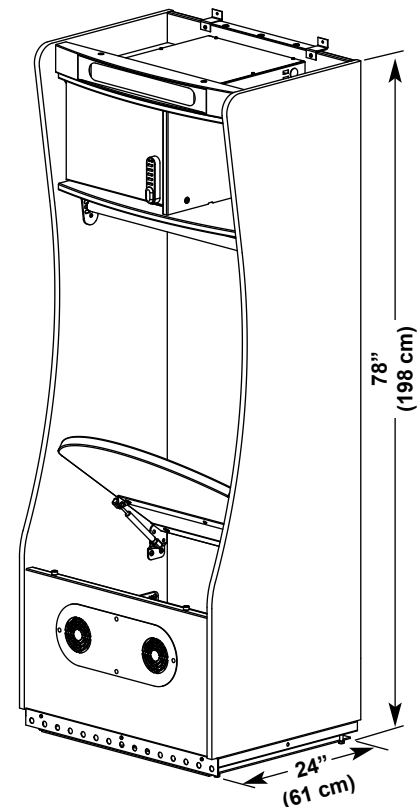

- Locker sizes:
18"-36" wide available in 2" increments x 78" high x 24" deep (46-91 cm wide available in 5 cm increments x 198 cm x 61 cm). Depending on overall locker width, a hinged seat can be up to 29½" (75 cm) deep.
