Appliances Raising the Bar on Style and Sophistication

Exclusive features to ignite gourmet passions

The Kenmore PRO™ suite of appliances has been created to give your clients the professional, exclusive edge they desire in design, capacity and performance. See for yourself what it takes to be called a PRO.

Power to meet your needs. From the 5,000 BTU simmer burner to the 17,200 BTU power burner, Kenmore PRO cooktops have the power the home gourmet needs for precise cooking temperatures. The Triple Ring Burner expands your heating options by providing even distribution of heat and extra control.

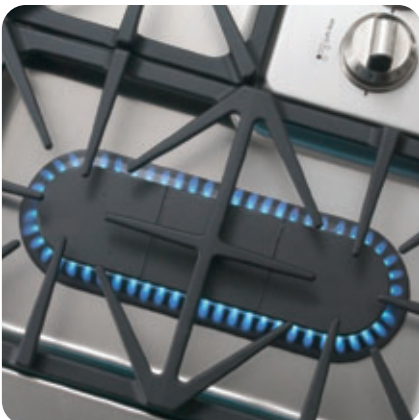

Cook what you want how you want. Kenmore PRO wall ovens offer a large oven capacity, which you would expect for professional-style cooking. Three heavy-duty ladder racks provide chefs with over 13 individual cooking positions for optimum placement and maximum capacity.

Sauté or sear a dinner for two or twenty. The Kenmore PRO bridge burner can be operated like two single burners, or it can work together as one. With versatile heating power from 9,000 BTU up to 27,000 BTU, the home gourmet can now have the flexibility to cook pancakes on a griddle or heat a large roasting pan.

The space for every occasion. Kenmore PRO professional size refrigerator/freezer units deliver 33.7 cubic feet of total storage, up to 40% more than leading professional brands of single stand-alone side-by-side refrigerator/freezer units. Enough room for all your gourmet ingredients and the largest party platters.

Make clean-up a breeze. Kenmore PRO dishwashers feature SmartWash™ with optical soil sensors, which automatically adjusts wash time, water and energy with each load. TurboZone's™ 24 rotating jets attack baked-on food from every angle, eliminating the need to pre-soak dishes.

Kenmore PRO™ Dual-Fuel 30-Inch Free-Standing Range 22-79523 – \$3,999.99 MSRP

Dual-fuel is the Very Best of Both Cooking Worlds

The choice of the world's finest chefs... dual-fuel advantage offers the control and flexibility of a gas cooktop with the convenience and precision of an electric oven.

- A unique recessed gas through glass surface with sealed burners
- 27,000 BTU power bridge burner that provides maximum cooking flexibility for all sizes of cookware
- 17,200 BTU power burner for rapid heating
- 5,000 BTU simmer burner for melting chocolate or heating delicate sauces
- Large 4.2 cubic foot capacity self-cleaning oven with dual halogen automatic lights
- Variable speed true convection oven that delivers consistent temperatures to cook food evenly and seal in juices
- Auto convection conversion removes guesswork for converting family recipes by automatically calculating cooking temperatures
- The hidden bake element design provides more cooking capacity with easier clean-up
- Three nickel-plated, heavy-duty oven racks with handles and 13 individual cooking positions for optimal placement
- Porcelain-coated enamel matte-finish grates and burner caps are durable and easy to clean because they are dishwasher safe
- Gourmet Accessory Package with food temperature probe, searing grill, roasting rack and cast-iron griddle

Professional Size Refrigerator/Freezer

Shown with optional trim kit

Rough Opening For Double Trim Kit (46-4473) & Single Trim Kit (46-4471)

46-44823 Refrigerator – \$1,699.99 MSRP

46-44833 Freezer – \$1,699.99 MSRP

Professional trim kit option provides a built-in, professionally finished appearance:

Double Trim Kit: 46-4473 – \$599.99 MSRP

Single Trim Kit: 46-4471 – \$499.99 MSRP

Space for Every Occasion

Large 33.7 cubic feet of storage capacity to store all your fresh and frozen gourmet ingredients or party platters. Up to 40% more space than leading professional brands of single stand-alone side-by-side refrigerator/freezer units.

- Dual refrigeration system, one for the freezer and one for the refrigerator— each with its own evaporator and compressor. This increases cooling efficiency and prevents odors from transferring between the refrigerator and freezer sections
- PureSource 2® ice filtration system effectively filters out contaminants for clean, better tasting ice
- Fresh'n Clean™ air filtration system keeps the interior of the refrigerator and freezer smelling fresh while minimizing odors
- Innovative food organization system includes full-extension freezer drawers, robust sliding shelves, tilt-out freezer bins and full-depth shelves offering easier access to food
- Dual split, fully-extendable humidity crispers assure fresh taste of foods that require storage at different humidity levels
- Gourmet pantry with wood wine rack allows meats, fruits, cheeses and even fine wine to be organized and stored separately according to your culinary needs
- Transition lighting gradually illuminates the interior with soft, ample light
- Both the professional size refrigerator and freezer can be purchased individually or as a pair

Shown with optional trim kit

Convenience and Looks in Grand Style

- Innovative food organization system includes full-extension freezer drawers and full-depth shelves offering easier access to food
- SmartFit™ shelf adjusts to fit taller items
- Dual split, fully-extendable humidity crispers offer four humidity control zones
- PureSource 2® ice and water filtration system effectively filters out contaminants for clean, better tasting ice and water
- Fresh'n Clean™ fan-forced air filtration system keeps the interior of the refrigerator and freezer smelling fresh while minimizing odors
- Temperature-controlled gourmet pantry with wood wine rack allows the temperature to be adjusted separately
- Variable speed compressor system maintains a consistent temperature in the refrigerator and freezer
- Polar Freeze™ system quickly raises or lowers the temperature for added flexibility
- Rapid Ice™ option can produce up to eight pounds of ice in 24 hours
- Transition lighting gradually illuminates the interior with soft, ample light

22-13873 24" Dishwasher – \$1,399.99 MSRP

Makes Clean-up A Breeze

- Stainless steel Giant Tub™ holds items up to 13" tall in lower rack, 11" tall in upper rack
- TurboZone™ with 24 rotating spray jets blasts water into every square inch of dishes placed in the wash area, providing cleaning coverage even into the hardest-to-clean corners of the dirtiest casseroles and bowls
- SmartWash® with Optical Soil Sensor uses an advanced detection system to calculate the correct amount of water, time and energy needed to clean every load
- QuietGuard™ ultra sound insulation package
- Premium Nylon Rack System features smooth glide rails, fully adjustable and removable rack inserts and deluxe adjusters on the upper rack for the ultimate in flexibility and convenience
