### The world's only THX-certified panel

QuietRock 545THX is the only THX-certified sound damping wall and ceiling panel designed to meet the high-end requirements of commercial theaters, recording studios and home theaters. QuietRock 545THX delivers superior sound isolation within demanding media and privacy environments, even at 50 Hz.

#### QuietRock 545THX Benefits

- Highest performing wall panel in the world
- Delivers STC ratings of 60-80
- Highest total sound loss factor across all frequencies from low to high
- · Hangs and finishes like standard drywall
- Outperforms older technologies such as mass loaded vinyl by 60-90%
- Low frequency isolation up to 50dB; high frequency up to 90dB
- · Environmentally friendly, lab tested
- Worldwide patents pending

### **Product Specifications**

Model: QuietRock 545THX

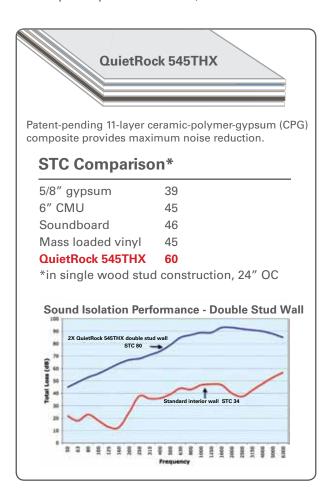

Thickness: 1-3/8"

Tolerance: Min - 1.300",

Max - 1.450"

Weight: 6.7 lbs/ft² STC-rated: 60–80 Permeability: 0

R value: 0.88

## **Applications**

- Home theaters
- Commercial theaters
- Recording studios
- Government
- Offices
- Conference rooms

STCs shown are on 24" wood studs, except for 516.

The information contained in this document is for general information purposes only. Features and specifications are subject to change. The diagrams and stated STC ratings listed are intended to serve as a guide. Construction practices have an influence on final STC ratings. Serious Materials cannot guarantee actual STC ratings. Flanking sound patterns, the integrity of the wall, and floor and ceiling construction are important factors in effective sound control.

STCs shown are on 24" wood studs.
