Cable	3 core
Inbuilt Receiver	No

Auto Wand is the most affordable motorization solution. This easy to operate, child safe solution has an external battery tube and uses a Wand Control. An electronic limit setting stops the shade at the highest and lowest point. No installation wiring is required for this innovative technology. Alkaline battery life is 6 to 12 months and a warning sound lets your customer know when the battery charge is low.

Wand Control

Maximum shade size is based on the Genesis material selected. Many materials are available up to 80" x 80". Auto Wand is the utmost child safe solution at an economical value and offers easy installation and operation. Includes a 1 year manufacturer warranty.
