

PURLINE

Designed by Nature. Refined by Science.
Flooring Reinvented.

FEATURES

- **Purpose:** Advanced technology, precision engineering, ecological responsibility and more than 6 years of research and development to create a new flooring material that would sustain the most demanding commercial applications.
- **Practical:** Hygienic nonporous material with a tenaciously wear resistant surface and the simplest of maintenance requirements that involves no finishing, waxing, buffing or stripping.
- **Pure:** Produced with 90% rapidly renewable & natural raw materials, PURLINE is GreenGuard Gold certified and will not negatively impact indoor air quality, energy consumption or facilities costs.

COMMON USES

PURLINE

Designed by Nature. Refined by Science.
Flooring Reinvented.

PU (Polyurethane) is
5x more durable than
vinyl flooring products

The only flooring that can endure
the extreme demands of healthcare
and public buildings produced from
botanol polyurethane.
