

A close-up photograph of an elevator control panel. A technician's hand is visible, holding a multimeter. The multimeter's display shows '4.5 mV'. The control panel is densely packed with electronic components, including a green printed circuit board (PCB) with various chips and connectors. A 'FLUX' component is visible on the PCB. The background shows a complex network of wires and other electronic modules.

## THYSSENKRUPP ELEVATOR MAINTENANCE CONTROL PROGRAM

As the largest elevator company in North America, ThyssenKrupp Elevator offers you the latest technology, highest quality products and best maintenance in the industry.

The current ASME A17.1 Safety Code for Elevators and Escalators, Section 8.6 requires that a written Maintenance Control Program shall be in place to maintain the equipment and shall consist of procedures for examinations, maintenance and testing of equipment at scheduled intervals. This code also mandates that compliance documentation must be accessible to elevator personnel.

ThyssenKrupp Elevator's code compliant Maintenance Control Program (MCP), comes standard with every elevator and escalator we maintain.

Our MCP is made up of procedures for the examination, maintenance and testing of your elevators and escalators to ensure the upmost in safety and performance, giving you unsurpassed benefits:

- Convenient, detailed list of maintenance tasks scheduled to be performed.
- Maintenance Tasks & Records Log, allowing for:
  - A unique record of all maintenance tasks for each unit.
  - Readily available historical data for each unit.
  - List of all code-required tests and a place to record the results.
- Maintenance tasks clearly defined by equipment type so that our maintenance personnel can visibly understand their responsibility for performing each required task.
- Permanent hard copy of records that remains with the unit owner.

Our MCP program meets all of the ASME A17.1 - 8.6 requirements, while providing you with the confidence and peace of mind that your elevating equipment is being maintained by partners who are committed to protecting your investment.
