FOR IMMEDIATE RELEASE

**JOHNSONITE® EXPANDS SUCCESSFUL MILLWORK TO A FULL SYSTEM,
ADDING CHAIR RAIL, CORNERGUARD AND NEW BASE PROFILES**

CHAGRIN FALLS, OHIO, February 7, 2007 – Johnsonite®, provider of the world's most integrated high performance flooring system, is touting the expansion of its successful Millwork Contoured Wall Base line to a full wall finishing accessories system. This includes the introduction of three chair rails, a decorative cornerguard as well as three new base profiles.

Johnsonite developed the innovative system in response to strong demand for the Millwork finishing accessories line. Designers and end-users will be pleased that the same aesthetics, durability and cost savings achieved through Millwork Contoured Wall Base is now available in other wall finishing accessories.

"Market demand was the key driver of this initiative," said Carmen A. Pastore, Johnsonite's senior vice president. "The response to Millwork has been incredibly positive. Expanding the line to full system is a natural progression in successful product development and fulfilling market need."

Millwork, a contoured wall base with the look of finely milled wood at half the cost and installing in half the time, was previously available in fourteen distinct profiles in 8-foot lengths. With the addition of three more profiles, Equinox, Mandalay 2.5 and Emissary, the portfolio has been expanded to seventeen decorative options. What's more, with the addition of a Millwork cornerguard and three new chair rail profiles, Millwork becomes a wall and flooring system, offering design flexibility and long term durability not currently available in the market.

Millwork offers a non-fading finish free of unsightly knots, grains or nail-heads. It won't splinter, chip or absorb liquids, so it resists stains, dents and scratches. Millwork is available in over 140 standard colors and in some cases, our 19 beautiful Wall Art patterns.

Johnsonite, headquartered in Chagrin Falls, Ohio, is the leader in flooring solutions that integrate design, function and life-safety, leading to enhanced productivity in high performance environments. Sales, manufacturing operations and product distribution are located throughout

North America. For more information on Johnsonite products and systems, call (800) 899-8916 in the United States and (800) 661-2162 in Canada or visit Johnsonite at www.johnsonite.com.

Johnsonite is a Tarkett Company. Tarkett was founded over 130 years ago and is now the largest resilient manufacturer in the world with over 28 production centers, sales of about 1.6 billion € (1.9 billion US\$) in more than 100 countries and over 7000 employees. Its comprehensive product lines are known throughout the industry for innovation, excellent design and high quality. The corporation's core businesses are segmented into two divisions, commercial and residential. The core products include resilient flooring, including linoleum, wood, and laminate floor products for residential and commercial applications. In North America the commercial products are marketed under the brand names Tarkett[®], Azrock[®], by Tarkett, and Expressions[™] by Tarkett.
