enMotion®

Recessed Automated Dispensing

enhances image | improves hygiene | benefits our environment
advanced technology that transforms the washroom experience

The enMotion® Recessed Automated Towel Dispenser turns an ordinary wall into a great one. Its sleek stainless steel finish and stylish design make it as impressive visually as it is functionally. Its “hands free” towel delivery minimizes the risk of cross-contamination, and its controlled dispensing feature reduces towel usage by at least 20 percent.*

Take a look and you’re sure to discover why the popularity of enMotion® is soaring and why it is the ultimate solution for today’s contemporary washroom.

enhances image
Sleek, stainless steel styling conveys a high-end image.

improves hygiene
“Touchless” dispensing minimizes the risk of cross-contamination and creates a more hygienic environment.

meets EPA Guidelines
enMotion® high capacity EPA compliant roll towel (89430) meets EPA recycled content guidelines.

reduces costs
One-at-a-time towel dispensing reduces waste.

meets ADA Guidelines
enMotion® dispenser meets ADA guidelines when properly installed.

97% of enMotion® customers are overwhelmingly satisfied with its performance.**

Created by popular demand, the enMotion® Impulse 8™ is designed specifically for office break rooms or anywhere space is tight. It takes up less vertical space, yet uses the same 8.25” wide roll towel as the enMotion® recessed dispenser. And, it delivers many of the same benefits as its larger predecessors.
adjustable settings
— Includes Sheet Length, Sensor Range, Sensor Time Delay, and Dispensing Model

multiple power options
— 4 standard alkaline D cell batteries
— Easy-to-install batteries
— Optional AC adaptor available for purchase

automated touchless dispensing
— Conveys image of high-tech facility
— Reduces risk of cross-contamination
— Promotes tenant satisfaction

green investments make sense

At Georgia-Pacific, we’re dedicated to minimizing our impact on the environment. Our enMotion® dispenser helps achieve the priority of source reduction by reducing paper towel usage by at least 20 percent.* Reducing waste is an important measure of being green and is the core of our environmental commitment.

- Our enMotion® Automated Towel Dispenser and our EPA compliant towel provides opportunities to earn points for the U.S. Green Building Council’s LEED® Certification.
- At Georgia-Pacific, we support the Environmental Protection Agency’s (EPA) strategies of Reduce, Reuse and Recycle. In addition, we help our end user customers demonstrate that their facilities are “green”, in part due to the environmental dispensing systems and paper products they choose.
- When compared to standard folded towel systems, the enMotion® dispenser helps achieve waste reduction at the point-of-use by reducing paper towel usage by up to 20 percent.
